- MS Excel Certification (LearnX)

ACHIEVEMENTS

- Secured 3rd position in the Institute Hackathon, showcasing rapid problem-solving and application development.

- Received a Certificate of Appreciation for serving as a Stand-in Teacher, highlighting strong presentation and communication ski

PROFILE

I am a motivated BCA student with a deep interest in modern web development. During my learning journey, I have built a mini-website and gained practical experience in HTML, CSS, JavaScript, React, Angular, and Figma. I enjoy creating clean, responsive, and user-friendly interfaces.
I am quick to learn new technologies, detail-oriented, and carry a creative approach in my work. I am looking for opportunities where I can further enhance my frontend skills and grow professionally in the field of web development.

WORK EXPERIENCE

BUSY 18 ACCOUNTING SOFTWARE (1 YEAR)

PROJECTS

1. **PetKart – Online Pet Items Purchasing Website(PHP Version)**
- Technologies : PHP, MySQL, phpMyAdmin, HTML, CSS, Java – Script
- Developed a functional e-commerce style mini-project for purchasing pet items online.
- Implemented login, signup, product listing, cart system, and order form.
- Designed MySQL database for products, users, and orders.
- Learned full workflow of backend logic, database connectivity, and dynamic content rendering.

2. **PetKart – Online Pet Store (React Version, in process)**
- Technologies: React, JavaScript, CSS, MongoDB, Node.js.
- Rebuilding PetKart with a modern React interface for a smoother and responsive shopping experience.
- Designing product pages, navbar, and reusable components with a clean UI structure.

✉ **ravalk638@gmail.com**

📍 **A-202, Sai Complex, near HDFC
Bank, Dharampur
Dist - Valsad
Pincode - 396050**

- Integrating backend APIs using MongoDB + Node.js for product fetching, user login, signup, and cart management.
- Improving frontend architecture, state management, and overall user experience.

3. UI/UX Design (Figma)

- Tools: Figma
- Designed PetKart's page layouts, wireframes, and interface concepts.
- Able to convert Figma designs into fully responsive React and PHP frontends.
- Good understanding of visual hierarchy, spacing, colors, and component structure.
